A-0300 – Combined Cutting and Weld Removal Solution

Description
https://safetytools.no/en/product/a-0300/

Combined Cutting and Weld Removal Solution is the most optimal system for cold cutting and cold weld removal – Hot Work Permit not necessary.

Technical data

Ex-certified as safe to use in ATEX gas zones 1 and 2 and ATEX dust zones 21 and 22.

Weight: 44kg
Dimensions: 80x45x64cm
Diameter discs: 110mm
Thickness A-0502: 5mm
Thickness A-0503: 10mm
Estimated lifetime disc A-0502: 12 meters on a 8mm plate
Estimated lifetime disc A-0503: 12 meters on 8 -12mm welds
Freehand cutting depth A-0502: up to 15mm
Max cutting depth A-0502: up to 30mm with special magnet fastener designed for plate and pipe work

> **A-0300 - Combined cutting and weld removal solution**   **Size: 80x45x64cm - 44 kg**
> Combined cutting solution with all our cutting tools, for both general cutting and weld removal.
> Reduce time spent on demanding risk assessments and cut costs related to shutdowns,
> fireguards, hot work permits, habitats, and demanding cleanup work.

Air tools	Accessories	
A-0105 Fuji Angle Grinder **(2 pcs)**	A-0071 Armoured hose	A-0086 Cutting and Weldseam Pelicase
Cutting discs	A-0073 Cutting Guard	A-0204 – Thin Spanner 19mm
A-0502 – Cutting disc	A-0074 Covering Weldseam Fuji	A-0206 – Chuck key
A-0503 – Weld removal disc	A-0077 A & C	A-0208 – Spanner 22mm
Custom Tool for water control	A-0079 Nozzle with connector **(2 pcs)**	A-0209 – Spanner 36mm Thin
A-0310 Water Control Box
